

Pointer and annotation tools

Open the presentation tools with a **right-click** on the audience screen.

Laser pointer

Pencil

Eraser

Tune the laser pointer

Press **L** to select the laser immediately.

- ▶ Pick red, green, or purple.
- ▶ Set the diameter with the slider.
- ▶ Enter an exact pixel size when precision matters.

**Your settings persist
between sessions.**

Draw without changing the PDF

1. Select **Pencil** and draw on the current slide.
2. Use **Eraser** for local corrections, or Clear for the slide.
3. Hide overlays temporarily from the presenter window.
4. Save a .uil package to preserve editable annotations.

Tip

The slide grid is always one key away: press **G**.
