

A completely embedded interactive figure

► INTERACTIVE

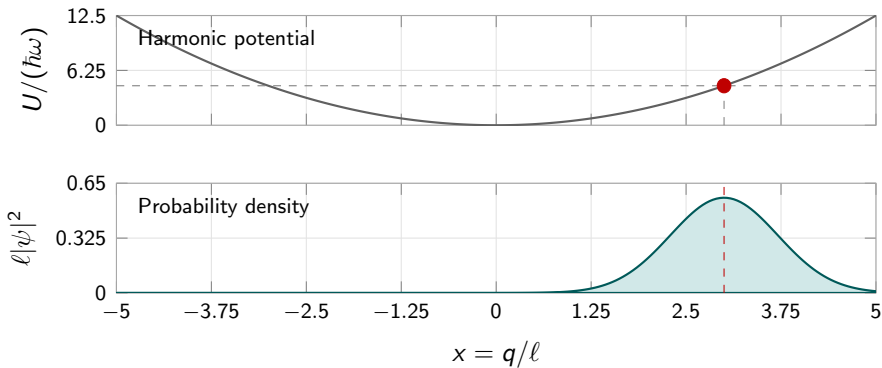

$$y(x, t) = A \sin(fx - \varphi(t))$$

A stretched bond released in the harmonic limit

► INTERACTIVE

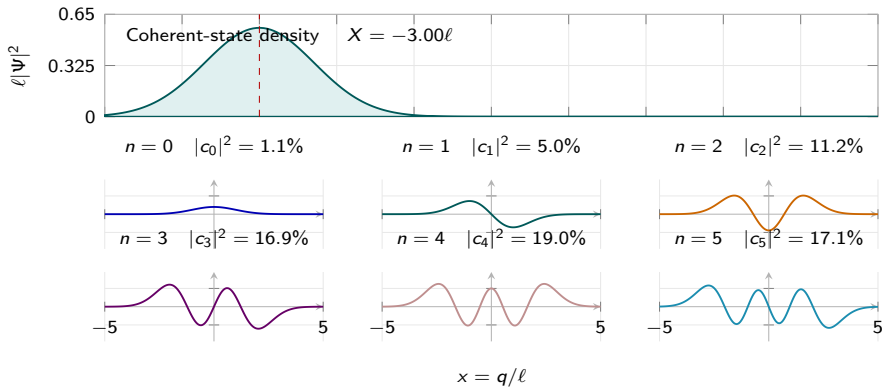

A displaced harmonic-bond wavepacket

A coherent packet resolved into basis components

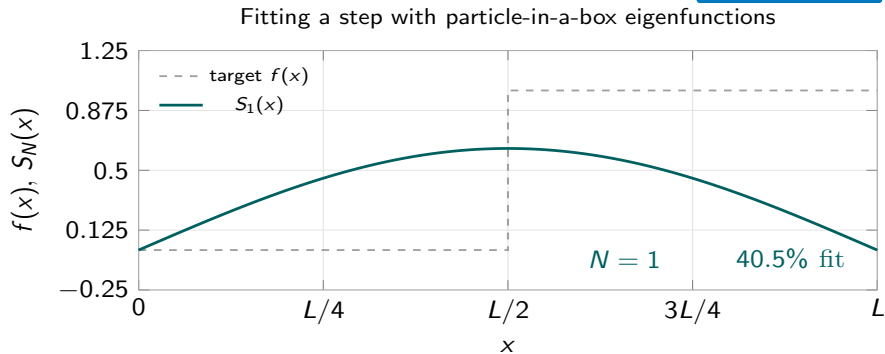

► INTERACTIVE

A coherent packet and its real basis components

Fitting a step with particle-in-a-box eigenfunctions

► INTERACTIVE

Fitting a stretched harmonic-oscillator state

► INTERACTIVE
